

# PALM POWDER FAT FOR DAIRY CATTLE

MA YINHUI; YOONG JUN HAO; and NIU YUETING

## INTRODUCTION

Palm fat powder has become popular among milk producers as a source of extra fat. Palm powder fat is made mostly from vegetable oil-based fats, with palm stearin as the main constituent.

## FINDINGS

Palm powder fat **improves** the absorption and **utilisation** of feed energy and **increases** milk production of dairy cattle. Palm powder fat increases milk production by 2.72 kg per dairy cattle per day.

## ADVANTAGES

1

**Higher milk production**

2

**High value Addition**

3

**Better palatability**
